About This Game

Description

Abstract Golfing - this is a simple game in which you need to hit the ball and throw it to the top of the abstract mountain. In this game you can not lose, falling you just come back, try again, you will succeed. A pleasant musical accompaniment and beautiful lines of colorful figures turn this game into a soothing journey to the top. When encountering obstacles on your way, overcome them. In some ways, the game teaches life. Teaches that what's important is not what you tried and did not work out, but because you need to try to get up, fall and try again. I believe in you!

Features

- Pleasant gameplay
- Cute graphics
- Easy management
- Cooling music

This is a simplistic 3D bus driving simulator, drive a bus around some NYC streets, collecting and delivering passengers on the public transport system.

While the premise of the game may appeal to some, the implementation appeals to none. The graphics are quite poor quality, the resolution is fixed and the graphics options can't be changed or improved beyond "low/med/high". Controls are likewise fixed, which means any peripherals like a HOTAS prevent the game from being playable. Gameplay is equally limited, featuring only simple bus routes and lacking even the level of sophistication as the truck driving sims.

There are many simulation games like Euro Truck Driver, this one is so poor in relative quality that it's impossible to recommend.. Absolutely brilliant series which I would recommend to anyone. Onward!. who can complain about free stuff?. A beautiful end to an amazing tetralogy. Story, play time, puzzles, actual playability and character development improved quite a lot.

The experience was very enjoyable, and the game is definitely worth the money.. Super Fun Totally recommend this.

Its bad! really boring and poorly made i thought itd be fun in an ironic kind of way like hunnie pop but nope its cancer. After three hours of gameplay, I still have no idea what Aentity is about, what its rules are, the story or pretty much anything. What I am certain of, is its value as an abstract art generator, which can decorate your living room without paying a fortune, or perhaps serving as a book cover, or otherwise generally aiding you in artistic matters.

I am giving the thumbs up very tentatively, but I urge people to try it on their own.. Great game. really missed the old version... Love being able to use all the stuff now

. Gets hung up on itself often and occasionally crashes. Run it again and it will work with varying degrees of success. used to work fine but need some stability updates before I can recommend it to anybody else.. Great old school styled FPS. Furu ike ya kawazu tobikomu
