If you enjoyed the game Civil War 2 then this is a good DLC for the game. The added scenarios are good and add more possible directions the game can go. You can play later in the war and the 64 65 scenario is a real challenge as a confederate just like the war. But if your new to the game the 62 east or west campaign is a good starter for learning to handle larger operations if you have been learning through the smaller scenarios. Its a lil pricey but if you can snag it on a sale this is a must have for this game.... Fun game, challenging and complex. AI really gives my comp a workout.
